

# CELL POWER®

## THE NATURAL SOLUTION FOR SKIN CONCERNS

AS RECOMMENDED BY PRACTITIONERS

## UNDILUTED\*

### NAIL FUNGUS

Apply 1 to 3 drops of **CELL POWER®** under toenails or fingernails once daily. To avoid reinfection, sterilize socks and shoes with iodine diluted in water (1 part iodine, 2 parts water).

### WARTS, SKIN TAGS, SCARS, COLD SORES, MOLES

Apply 1 to 3 drops of **CELL POWER®** directly to the affected area once daily. For sensitive skin use a dilution of 1 part **CELL POWER®** to 10 parts distilled water.

## DILUTED

### ACNE, INSECT BITES, SKIN RASHES, SUNBURNS

Use 1 teaspoon of **CELL POWER®** to every 10 teaspoons of distilled water.

### BRUISES, SWOLLEN JOINTS, AND OPEN WOUNDS

Mix 1 teaspoon of **CELL POWER®** to every 20 teaspoons of distilled water and apply to affected area.

### UNDERARM DEODORANT FOR THE HEALTH CONSCIOUS

Use 1 teaspoon of **CELL POWER®** to every 7 teaspoons of distilled water.\*

### EAR DROPS OR SINUS SPRAY

Use 1:40 dilution, 1 drop of **CELL POWER®** to 40 drops of distilled water

### VEGETABLE AND FRUIT WASH

Use 15 drops of **CELL POWER®** in a basin of water (approx. 32 fluid ounces). Just wash and eat - no rinsing needed.

### SEED, NUT, & GRAIN SPROUTING

Seeds, nuts, and grains can be sprouted to increase both health benefits and improve flavor for eating. Add 5 to 10 drops of **CELL POWER®** to a bowl of water and approximately 1 pound of seeds, nuts, or grain.

**All topical applications of CELL POWER® should be pain-free. If any of the dilutions are not pain-free, add extra distilled water until tolerable.**

**\*NOTE:** When applying diluted or undiluted **CELL POWER®** to the skin, allow to dry completely before putting clothing on over the affected area. Undiluted **CELL POWER®** may discolor or damage clothing, fabric, paper, plastics, counter tops, or other surfaces. If undiluted **CELL POWER®** is spilled on clothing or fabric, rinse immediately with water. If undiluted **CELL POWER®** is spilled on a hard surface, wipe immediately with a wet cloth.

CELL POWER is a dietary supplement from a concentrated food source. Its use has not been evaluated by the FDA. CELL POWER is not intended to diagnose, treat, cure or prevent any disease. For individual guidance with specific health concerns, always consult with a health care professional. Persons with serious medical conditions should seek professional medical care.

# CELL POWER®

## THE NATURAL SOLUTION FOR ANIMAL HEALTH

## DID YOU KNOW THAT ANIMALS LOVE IT?

We recommend offering your animals or pets two sources of water. One should contain only plain water and the other should contain **CELL POWER®**. The amount of **CELL POWER®** should be according to the animal's weight, as shown below. Amazingly, most animals that need help healing will instinctively choose the **CELL POWER®** water.

**SMALL ANIMALS (under 20 pounds):** 2 drops of **CELL POWER®** daily in a bowl of water.

**MEDIUM ANIMALS (21-80 pounds):** 3 drops of **CELL POWER®** daily in a bowl of water.

**LARGE ANIMALS (81+ pounds):** 4 drops of **CELL POWER®** daily in a bowl of water.

**HORSES AND LIVESTOCK:** 1 ounce of **CELL POWER®** daily in 30-50 gallons of water.

Simply add **CELL POWER®** again whenever you refill the water bowl. Animals will intuitively know how much **CELL POWER®** they need to help them and will drink that amount. Often, they will drink more water than they would have without the **CELL POWER®**. Some pets may even ask you to refill their water bowl once they finish!

Some of the benefits animals have experienced by taking **CELL POWER®** include relief of joint pain from arthritis or hip dysplasia, reduction in tumor growth, faster recovery speed from injury or surgery, improvement of skin disorders, and increased levels of energy.
